LEVEL GREEN

We learn that the big court of Kentucky says Hargis and Co. must face the music at Lexington where they can have justice meted out to them, and we say, let it be so too; and we further say that if a fair trial can and will be accorded, the Breathitt county suspects at Lexington, the same would be given Taylor and his cohorts, then why not send them in and let the laws be executed on them a little instead of hiding them behind the Governor of Indiana, in violation of U. S. Constitution? This seems to me another case of "the lawyer and farmer" and their celebrated ox episode.—Let law and equal justice be handed out or down to all alike, and not punish some and protect others equally as guilty. Our laws are good if executed.

Wade Brown brought in a good lot of sheep from the mountains Monday for which he paid long prices.—Wade Mullins bought a small pair of mules from John Thompson for \$210.—J. N. Brown one from Walter Renner for \$80. Work horses are very scarce and mighty high here now.—A few hogs are going at 3½ cts., cattle are in the back ground, but will move to the front by and by. If our farmers would raise only the best grades of cattle we would always have a market at home.

Norton and Hamlin have new goods at the old stand. Eggs are worth 16c, but will drop as the season advances. Our farmers are doing their best to put out large crops of both corn and oats. John Jim DeBord has put out his garden and planted potatoes.—Jack Towery seems to be holding his own very well.—Some grip and colds with our people now.—M. P. DeBord and family, of Elrod, were visiting Mrs. Towery Sunday.—John Shultz has his mill in running order.—I can compliment Mrs. Patten in her answers to Grammar Questions. Here, boys, solve this: If three boys eat three (3) apples in three (3) minutes how many boys will eat 100 apples in ten minutes? If the third of six (6) be three (3) what would the $\frac{1}{4}$ of twenty (20) be? Analyze.

Victor Brown is working nights at Jellico Junction, Tenn., and is well pleased with his job.—Robt. Hatcher has too many taters and is mad about it. Boil them and feed to you pigs, Bro., plant lots of them again for there is nothing like it only more taters.

I f'e' this morning (Tuesday) just like I want to be farming, but alas! it is yet impossible. Say, where is Henry Brannaman, and why doesn't he come to see me and bring that rooster?

A CHICAGO ALDERMAN OWNS HIS
ELECTION TO CHAMBERLAIN'S
COUGH REMEDY.

"I can heartily and conscientiously recommend Chamberlain's Cough Remedy for afflictions of the throat and lungs," says Hon. John Shenick, 220 So. Peoria St., Chicago, Ill. "Two years ago during a political campaign, I caught cold after being overheated, which irritated my throat and was finally compelled to stop, as I could not speak aloud. In my extremity a friend advised me to use Chamberlain's Cough Remedy. I took two doses that afternoon and could not believe my senses when I found the next morning the inflammation had largely subsided. I took several doses that day, kept on talking through the campaign, and I thank this medicine that I won my seat in the Council." This remedy is sold by Chas. C. Davis, the druggist.

CONWAY

The frogs are making good use of the pretty weather.

Mrs. M. L. Kelton is visiting relatives in Richmond.

Dr. Cooper, of Livingston, is waiting on the sick here this week.

Whooping cough has again visited Coway, leaving several cases.

Harvey Chenault is preparing to raise ten acres of tobacco this season.

J. M. Nave, better known as Boss Nave, of Nicholasville, is with us again.

Some gardening in way of lettuce, peas and Irish potatoes, has been done here.

Owing to the wet weather there has been but little plowing done in this section.

Stock feed was never known to be any scarcer in this section than it is at present time.

One of J. C. Wood's children has whooping cough and pneumonia and is not expected to live.

Miss Mamie Jones, of Mt. Vernon, began a three months' subscription school here last week.

U. S. Berry is preparing to have an old fashioned wood chopping and a big dinner one day this week.

We understand we are to have more passenger trains on this line about May 15th. From the amount of train run on this line now we don't see much room for any more.

D. C. Pullins attended court at Stanford last week where he had a suit against the L. & N. R. R. Co., for being hurt by one of their trains at Rowland two years ago. He got a judgment against the company for \$250.

G. W. Jones, who went to Vi Grove, Ill., two months ago to visit his son, M. R. Jones, was taken sick a few days after arriving there, is not expected to live. "Uncle" George is a fine old fellow and it is to be hoped that he may recover and return to his old home here.

MATRIMONIAL

Micajah McKenzie, aged 59, and twice a widower, and Mrs. Maggie Cook, aged 33, who has also been married twice, were joined heart and hand Tuesday. The groom is a substantial citizen of the Pleasanton section while the bride, who lives near Highland, is a handsome and attractive woman.—Interior Journal. Mr. McKenzie was formerly a resident of this county, who is well and favorably known here.

In Russia every woman of the peasant class marries, or pretends to marry. If a girl comes to the decision that no one intends to ask her to marry, she leaves home, goes to some distant district and returns after a time to announce that she is a widow, that she went away to be married and that her husband has since died. No embarrassing questions are put to her, for among the peasants it is considered bad form to mention a dead man to his widow. This curious custom goes to show in what high regard the women of Russia look upon the institution of marriage.

Under the decision of the Court of Appeals, James and Alexander Hargis and Edward Callahan will be compelled to stand trial in Fayette county as accessories to the murder of James Cockrell.

The heavy rains of last week made a twelve foot rise in the Kentucky river, and the lumber men who have been idle so long are rejoicing over an abundant supply of logs. The Burt & Brabb Co., at Ford, caught about ninety thousand in their booms, filling them almost completely. This is the heaviest run they have had for years and means employment 12 months, day and night, for four hundred hands. The tide greatly damaged the lock at Ford, by the water cutting around the end on the Madison side and a number of government men are now at work trying to temporarily repair it until spring, when a large cement wall at a cost of many thousand dollars, will be built along the bank of the river to turn the current.—Richmond Citizen.

John L. Stone, of Stanford, visited George Frith first of the week.—Robert G. Wilmott began his career of telegraph operator, at Lily last week.—Chas. Hurt has returned home from Loretto and New Haven.—Mr. and Mrs. J. H. Dunn and Miss Ella Dunn are visiting in Garrard county.—Our new drug store is a sure go, Mr. Shugars having made contract with A. E. Albright for house. He will build it and have ready for occupancy by June 1st.—Capt. L. C. Smith who has been sick for several days, is able to be out again.—W. A. Hunt, of Lebanon Junction, spent Sunday with R. W. Dallas.—R. W. Dallas has sold his barber shop to W. C. Swinford. We dislike very much to give up Mr. Dallas, but hope it is for the best.

It is reported in Pittsburgh that President Roosevelt has given permission to labor leaders to go among Government workmen for the purpose of organizing them into unions.

CITIZENS BANK -OF- BRODHEAD, KENTUC KY.

It is with pleasure we desire to call your attention to the Citizens Bank, of Brodhead, Ky., and state some of the advantages that are gained by being one of our depositors. The Bank began business on January 7th, 1905, and its growth up to the present time has been remarkable and very satisfactory to the stockholders. We enjoy the distinction of being the only bank in this part of the State that began paying 3 per cent. on deposits, believing that when a person left as much as \$100.00 or more on deposit for six months without checking, that they should derive some of the benefits. We are equipped with the best burglar proof, screw door safe that could be made, and people have come miles to see it and pronounced it the most wonderful piece of mechanism they had ever seen. The safe is made of the best steel with a screw door one foot in diameter, and set within the door is the time movements by which the door is locked. The safe is set within a brick wall that is 23 inches thick. We also have a vault door that closes with twenty bolts and weighs 3,000 pounds. We most cordially ask you to visit the bank and examine it for yourself and see if it is not a safe depository. Remember we pay 3 per cent. on as much as \$100.00 or more when left six months.

We offer to the people a safe and conservative banking system. We ask you to give us your business and we guarantee a pleasant and profitable relation.

Trusting to have the pleasure of meeting you personally, I am,

Yours very truly

J. W. HUTCHESON, Cashier.

BRODHEAD.

The protracted meeting which has been in progress for the last three weeks at the M. E. church, closed last Saturday night, doing much good and adding several new members to the fold.—Born, to the wife of J. W. Ballard, on the 12th Inst., an 8-lb. girl.—Thieves entered the general store of John Robbins last Sunday night by breaking glass in front door. Mr. Robbins says he don't miss anything, but his clothing was found in a very bad condition.—Ora Frith still continues very low with rheumatism.

John L. Stone, of Stanford, visited George Frith first of the week.—Robert G. Wilmott began his career of telegraph operator, at Lily last week.—Chas. Hurt has returned home from Loretto and New Haven.—Mr. and Mrs. J. H. Dunn and Miss Ella Dunn are visiting in Garrard county.—Our new drug store is a sure go, Mr. Shugars having made contract with A. E. Albright for house. He will build it and have ready for occupancy by June 1st.—Capt. L. C. Smith who has been sick for several days, is able to be out again.—W. A. Hunt, of Lebanon Junction, spent Sunday with R. W. Dallas.—R. W. Dallas has sold his barber shop to W. C. Swinford. We dislike very much to give up Mr. Dallas, but hope it is for the best.

The Central Kentucky Traction Company filed articles of incorporation with County Clerk R. L. Baker here Wednesday, the capital stock to be \$200,000. The principal incorporators are Louis Desognes, president of the Lexington Street Railway Company; D. F. Frazer, president of the Phoenix National Bank; J. W. Rodes, cashier of the Phoenix National Bank; T. L. Young, W. W. Bain, John McClintock and P. G. Powell. The authorized indebtedness of the company is placed at \$1,200,000. The purpose being to build interurban railroads on the principal turnpike connecting Lexington with Versailles, Winchester and Richmond. The company is to absorb

the old Fayette Interurban Company, which recently purchased the franchises of Clifford Bebee, who took over the holdings of the Bluegrass Consolidated Traction Company. The Fayette Company had posted a forfeit to bind the building of the Versailles road with the Woodford County Fiscal Court.—[Richmond Climax.]

STRIKES HIDDEN ROCKS.
When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost, if you don't get help from Dr. King's New Discovery for Consumption. J. W. McKinnon, of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for sore throat, bronchitis, colds and colds. Guaranteed at all druggists. Price 50c and \$1. Trial bottles free.

Drilling for oil is to be on a large scale this spring and summer in Kentucky and Tennessee. Operators have begun to move machinery into sections out of the scope of regular activity. The present agitation in Kansas is said to be depressing the market and keeping down the price of crude oil.

We are authorized to manufacture

GRAVELILLE LEECHES
as a candidate for Magistrate in the Fifth
district composed of Brown and Brodhead
voting precincts, subject to the action of the
Democrats of that district.

JOHN PEARL has changed the
name of his splendid paper, The
Mountain Democrat, to The Laurel
County News. While no better
name can ever be found, than "The
Mountain Democrat" yet, we hope
the change, as it has come, will be
for the good of the paper.

The appointment of Judge
Cooper as Collector is a pretty big
feather in the cap of the newly
elected Congressman from the
Eleventh.

Booker Washington suggests
that the negroes should raise more
chickens. The farmers complain
has ever been that they raise too
many.

POLITICS AND POLITICANS

Ollie M. James, Congressman
from the First district, says: "I be-
lieve that Roosevelt is sincere in
his attitude in advocating Demo-
cratic principles, but the Republi-
can Senate will never permit him
to carry any of them into effect.
He has gone to the Democratic
platform for his ideas, but he will
be unable to do anything with the
Senate."

Two ballots for United States
Senator were taken by the Missouri
Legislature Wednesday without re-
sult. Speaker Hill created an up-
roar among the Republicans by
threatening to vote for a democrat
in case the deadlock was not other-
wise broken.

In the Democratic caucus for
United States Senator from Tennessee,
held in Nashville Wednesday afternoons,
Gov. James B. Frazier was nominated by acclamation.

The Louisville Times in discussing
the appointments under Collector
Cooper says:

"There are nineteen positions
under Collector Denton, exclusive
of the janitor, and not counting
the small army of storekeepers,
guarantors, etc., with an aggregate
pay roll of \$22,000. Of this num-
ber only three are civil service
clerkships. The new Collector,
therefore, will have sixteen dep-
ties to appoint without hindrance
upon the part of the Civil Service
Commission.

The best position of course, is
that of chief deputy. This pays
\$2,000 a year and is held by Bland
Ballard, of Madison county. Bal-
lard has been in the service for
years, under Democratic and Re-
publican administrations, and has
become to be regarded as an almost
indispensable piece of office furniture.
It is not unlikely that Bal-
lard will be retained if he wants to
remain in the service, as he can
run the office and relieve the Col-
lector of all annoyance other than
drawing his stipend. Another dep-
uty collector whose chances for
holding on if he wants to is L. E.
Rue, who is employed at headquarters
with a salary of \$1,400. He
is a son-in-law of W. G. Welch the
Danville banker, and a man hard
to turn down on any request he
might make politically in his local-
ity. The three civil service clerks
will also be retained, no doubt, as
they cannot be removed easily un-
less some charge can be preferred
against them for some good reason.
They are E. V. Wilson, of Har-
rodburg, \$1,500; A. B. Brown, of
London, \$1,500, and Miss Nettie
Smith, of Madison, \$700.

in both counties, it cannot be the
subject of complaint from him
which of them takes jurisdiction
so long as only one does so.

The court has come to the con-
clusion that the arrests of plaintiffs
in Breathitt were procured upon
their own instigation, or that of
some one acting for all, with the
design not to have a trial of the
charge there or elsewhere, but as a
cloak to prevent such trial else-
where. If such is not the fact, the
plaintiffs are peculiarly unfortunate
in the matter of certain coinci-
dences shown in the proof, as well
as certain discrepancies between the
record of the Squire's proceed-
ings and the admitted truth. In
reference to the Commonwealth of
the being bound by the action of the
Breathitt authorities it says:

"No reflection can be indulged
in against the Judge and Prosecuting
Attorney of Breathitt county.
This case has to do solely before
the prosecution took any form in
the Circuit Court of Breathitt. In
view of Section 2, criminal code
the case is resting upon the bona
fides of the alleged prior arrest in
Breathitt county. If that was not
properly speaking an arrest of the
accused, then as the Fayette Cir-
cuit first indicted them for the
offense of murdering Cockrell, it
took jurisdiction of the matter by
virtue of Section 24, to the exclusion
of the Breathitt Circuit Court.

"If accessories before the fact
can be jointly indicted with the
principals, if the principals could
be indicted in Fayette, an accessory
before the fact could also be in-
dicted and tried there, although
his act may have been committed
elsewhere."

The Rev. John Timothy Stone,
pastor of the Brown Memorial
Church, Baltimore, preached two
most excellent sermons at the Pres-
byterian church here on Wednes-
day and last nights. As stated in
our last issue, the object of Rev.
Stone's visit to this place, is to take
some steps towards establishing an
industrial department in connec-
tion with the Mt. Vernon Collegiate
Institute. At a meeting held
yesterday, by Rev. Stone, Dr. D.
McDonald and the board trustees,
it was definitely decided, to add at
once an industrial department for
girls. There will be twelve rooms
added to the main dormitory build-
ing, and three rooms to the parson-
age and the addition will cost
from \$3,000 to \$4,000. The pres-
ent plans are for an industrial de-
partment for boys also, but no de-
finite steps have been taken in that
regard as yet. This work will be
provided for by Rev. Stone's
Church.

A special from Lexington of re-
cent date says:

"It developed that the negro
Grant Ingram, who was shot and
killed by Jailer Hines in Somerset
last night was the self confessed
murderer of Operator W. B. Rucker,
who was shot in Danville on
the night of February 4, 1904.

Shortly after the murder of Rucker,
Ingram became engaged in a dis-
pute with Deputy Sheriff Elrod
of Somerset, and after a desperate
assault on him made his escape
and came to Lexington. His de-
scription was sent out by Chief of
Police Huges, of Somerset, and he
was arrested here by Sergeant Crawley,
of the local police force.

Upon being questioned by Chief
Ragan and Sergeant Crawley the
negro confessed to the killing of
Rucker in Danville, and implicated
two other negroes in the crime.

Since then the local officers and
Chief Hughes, of Somerset, have
been working up the evidence in
the case and were about ready to
take the evidence before the Boyle
county grand jury when the negro
was killed by Jailer Hines."

This confession relieves the sus-
picion that the murder was prob-
ably committed by Bill Newcomb
and Wilson.

Tony Brooks has moved from
Hazel Patch to this place and is
living in the Mrs. Proctor property.
Tony is working an extra gang on
the road and has moved his family
here in order that the children may
attend school.

W. H. Lewis, section foreman
at Maywood, was here Saturday on
a visit to relatives. Willie is recog-
nized as one of the best track men
in the service and the splendid con-
dition in which he has his division
is evidence of that fact.

At a meeting of the stockholders
of the Crab Orchard Fair and Rac-
ing Association held last week, R.
H. Bronaugh was re-elected presi-

July 19th, 20th and 21st, are the
days set for holding the fair.

W. T. and Jno. E. Evans of
Brodhead, have returned from
Boyle county where they have
bought a nice farm that will make
an average 8 bbls. of corn, or
1,000 lbs. of tobacco to the acre.
They contemplate moving in the
near future.

Chas. C. Davis, our splendid and
up-to-date druggist has placed on
the market two of his own patents,

antee and which are all and even
more than claimed to be. One is
Davis' Cough Balsam and the other
Davis' Pain Killer.

A special from Danville, dated
March 15th, says: "On April 1st a
change will take place in the dis-
patcher's office of the Knoxville
division of the Louisville and Nash-
ville railroad at Livingston. W. W.
Wright, who has been in the dis-
patcher's office for a short time,
will be promoted to chief dispatcher,
and other employees will also
move up in this department. Mr.
Wright has been with the road
about ten years."

Exceedingly encouraging reports
have been received, of the proposed
improvements for that already
thriving and prosperous town,
Brodhead. Two new drug stores
and one general store building to
be erected in the near future. A.
E. Albright will erect, on the lot
where now stands Francisco & Al-
bright's monumental works, a drug
store, to be occupied by Mr. Shug-
ars of Lancaster. Dr. Percy Ben-
ton will also erect, on the lot where
now stands the Cranor-Smith Lum-
ber Co.'s office, a double building,
one side to be used by J. F. Watson
for drugs and the other side
arranged for general merchandise.

Says John W. Wanamaker, one
of the most successful business men
this country has ever had: "There
is only one way to advertise, and
that is to hammer your name, your
location, and your business so
thoroughly into the people's heads
that if they walked in their sleep
they would continually turn their
heads to your store. The news-
paper is your best friend. It helps
to build up the country which sup-
ports you. When the day comes
that the newspapers are dead, the
people are near the edge of their
grave, with no one to write their
epitaph."

Mr. H. S. Braunnaman was here
Wednesday and told us that Wildie
was very much on a boom. The
rock quarry owned by Hamilton &
Cole is being opened, which is one
of the finest ledges of stone to be
found anywhere. The quarry is
on a forty acre tract of land which
was purchased by the company,
from Flem Butler, back when the
K. C. railroad was being built from
Richmond into Livingston. A
switch leading off from the main
track near the South end of the
Wildie switch is being built to the
quarry, leading around below Tom
Stewart's premises, and then par-
allel with the creek. A large
number of men will be given em-
ployment when the works open.
J. H. Fish is also erecting a large
store room in South Wildie and
will carry a complete line of gen-
eral merchandise and undertakers
goods.

The deal was consummated Tues-
day, whereby the Rockcastle De-
velopment Co. is to furnish Fritz
Krueger, with gas for burning
the lime kiln. If the gas is suf-
ficient to burn the kiln, without
the use of any wood, Mr. Krueger
is to pay \$1800 per annum for it,
and if not sufficient for burning,
then in proportion. The pipe for
bringing the gas into town from

takes about 6000 feet of pipe."

Wade Brown passed through Monday with a nice drove of sheep, which he bought at a fair price.

W. A. Cox sold to I. A. Bowman two good work horses for \$100. Also to John W. Miller, of Lancaster, a number one mule for \$135.

According to the crop report, issued by the Agricultural Department, the percentage of wheat remaining in the hands of the farmers is 20.1 or 111,000,000 bushels; of corn, 38.7 per cent., or 954,000,000 bushels; of oats, 38.8 per cent., or 347,000,000 bushels.

Bush & Ramsey, auctioneers, report the sale of Ernest Eaton on the 7th, as fairly well attended: 1 combined mare brought \$121; 1 3-year-old horse, \$86; 2 milch cows, \$25 and \$33; 1 heifer calf, \$13; 1 steer calf, \$15; 1 sow and 9 pigs, \$23 75; hens, 10 cents. per lb.; roosters, 8 1/2 cents. per lb.; oats, oats, \$2.10 per hundred bundles; Irish potatoes, 40 to 45 cts. per bushel; fodder, 10 to 20 cts. per shock. Bush & Ramsey report the sale of J. W. Sims on the 2nd, as well attended and good prices prevailed. One 5-year-old mare, \$118; 1 4-year-old mare, \$118; 1 cow, \$30; 1 yearling steer, \$23; 1 sow and 5 shoats, \$21; corn in the crib, \$2.25 per bushel; fodder, 10 to 15 cts. per shock; Irish potatoes, 35 to 45 cts. per bushel; turkeys, \$3 each; chicken hens, 9 1/2 cents. per lb.—Winchester Democrat.

Mules are much the cheapest and most efficient animals for farm work, seldom sick or lame, very long lived, good for twenty-five years of hard work. A draft horse is worn out at 12 or 15 years. The mule, like the Arab, is all bone, sinew and muscle and can draw very heavy loads. A mule seldom kicks or balks; if it runs away it runs away it keeps the road and seldom does damage; and best of all they are able to live and labor on half the feed a horse needs. They are in their best work plowing corn; a mule will follow the row closely, turn on the coin at the ends and never stop on a single hill. They will turn in half the time a draft horse will. You can grow more corn with mules than with horses. The mule is all right and has a noble record.—Ex.

KENTUCKY DAY AT LEWIS AND CLARK EXPOSITION.

The following proclamation has been issued by Gov. Beckham:

Commonwealth of Kentucky, Executive Department, Frankfort, Ky., March 8, 1905.—To the people of Kentucky: The Lewis and Clark Centennial Exposition will be held at Portland, Ore., beginning June 1, 1905.

The people of Kentucky will be interested in the success of the exposition in view of the fact that Capt. Lewis and Capt. Clark were prominently identified with the early days of Kentucky.

Upon the request of the management I hereby designate and appoint Tuesday, August 1, 1905, as Kentucky day at said exposition and suggest that all Kentuckians who may be there attend on that date and participate in the celebration. Witness my hand this 8th day of March, 1905.

J. C. W. BECKHAM,

Governor.

THE COLONEL'S WATERLOO.

Col. John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from liver and kidney trouble. In a recent letter, he says: "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a sarsaparilla of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them."

Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

Judge Wheeler, of the U. S. Circuit Court of Appeals, in New York, rendered an opinion in favor of the American Sugar Refining Company, which, if finally sustained, will cost the Government \$5,000,000. The question involved is one of refunding duties paid on sugar imported from Cuba.

The Bank of Benton, at Benton, Ky., was blown open by burglars and the sum of \$4,000 was secured. They escaped on a horse, leaving it near Paducah, crossing the Ohio river into Illinois.

A BEAUTIFUL TRIBUTE TO KENTUCKY AND KENTUCKIANS.

In "Sports Afield" for March Prof James S. Coupton has an article on "The Land of the Blue," in which he pays a high tribute to Kentucky and Kentuckians. He says, in part:

"The Kentuckian is a genius and species all in one. By breed a Democrat, by birth an aristocrat, in inheritance an Englishman, in spirit the most pronounced of Americans; he presents some paradoxes that make him at once interesting and puzzling. With the blues of skies above, the bluegrass to walk upon, while underneath lies the blue limestone, it is no wonder that he is bold. He is bold—a vigorous—lively medium between the softness of the North and the dour garments (which, being interpreted, is simply the) spirit of the far South; he is good-natured; quick-witted and generous. His eyes look straight into yours, without defiance or apology; he takes it for granted that his acquaintances measure up to his standard of a gentleman; his friends know that he will go to almost any length to help them in time of need; his enemies, likewise, that he will pursue his purposes to the bitter end, be that what it may. The cut-throat, shoot-at-sight, chip-on-the-shoulder variety of Kentuckian figures so prominently in son newspapers and in some cheap fiction, while not unknown, is, like the wood duck, a vanishing creature; before many years he will join the ranks of the has-beens along with the trilobite and the crinoid, and, like them, will be best remembered because of his merits as a fertilizer."

The policeman saves a life; the fireman enters a burning building to rescue a child. There are thrills in those things. They are spectacular.

But did you ever stop to think of that army that operates the railroads in those days and nights when the killing frost squeaks under foot and it is so cold that you can scarcely breathe?

There is the engineer, on his ice and snow covered engine, who knows that the cold increases the chance of disaster, and who pounds along in the darkness, a mile a minute, for the schedule must be maintained, and whether obstacles are not allowed to count?

You scarcely move in your berth as the train rattles over the switches, but out in the cold somebody is alert and awakened almost freezing, but attending to his duty every instant.

How would you like to be a track walker, with the thermometer touching 8° below zero in the arctic breeze howling? He goes along miles, scanning every foot of the way for your safety, and he doesn't know that he is a hero, because that is his job.

And there are the men who test wheels and irons, and those who handle the coal, and the crews of the long freight trains, and hundreds more who are forced to work under conditions that would make cowards of men less strong.

They haven't asked for any medals. They are contented to belong to the unnoticed army.

But they are heroes, and if the world is so often too busy for sentiment will only stop to think, it will raise its hat in recognition of their courage and their fidelity to duty.—Milwaukee Journal.

From the horseman to the hunter is only a step, easily taken in a country where love of the outdoors and leisure turn the mind to the pleasures of the chase. A merry group are about to set out on a rabbit hunt. To the man used to the old fashioned rabbit hunt of boyhood days—a long tramp, in which three or four boys played the major and a muzzle-loading shotgun and a couple of dogs played the minor parts—hunting rabbits on horseback seems strange indeed. It is jolly sport when the days are crisp and fine; the happy, cheerful company, the invigorating exercise, the bit hunt.

At Denver, Colo., George Schistler, a teatester, agreed because of his defeat by K. Fill in a law suit, shot and killed Fill and his wife and set fire to their home. Returning to his home, Schistler barricaded himself and shot and wounded three men who attempted his capture. He was finally killed.

KEEP YOUR BLOOD CLEAN

The total deposits in all the savings banks in the world, according to the latest available statistics, amounted to \$10,500,000,000, contributed by \$2,640,000 depositors. These figures indicate that the United States, with less than 9 1/2 per cent. of the total population considered, contributes over 29 per cent. of the total savings recorded. These figures help to explain the remarkable manner in which the recent large bond issues have been absorbed.

CHAMPION LINIMENT FOR RHU-

MATISM.

Chas. Drake, a mail carrier at Chapinville, Conn., says: "Champlain's Pain Balm is the champion of all liniments. The past year I was troubled a great deal with rheumatism in my shoulder. After trying several cures the store-

keeper recommended this remedy and it completely cured me."

There is no use of anyone suffering from that painful ailment when this liniment can be obtained for a small sum. One application gives prompt relief and its continued use for a short time will produce a permanent cure. On sale at Chas. C. Davis' drugstore.

SAVED MY LIFE"

That's what a prominent

druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From

infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does

it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food.

No system is too weak or

delicate to retain Scott's Emulsion and gather good

from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.
